AMENDED IN SENATE AUGUST 7, **2006**

AMENDED IN ASSEMBLY MAY 26, **2006**

AMENDED IN ASSEMBLY MAY 11, **2006**

AMENDED IN ASSEMBLY MAY 8, **2006**

AMENDED IN ASSEMBLY MAY 3, **2006**

AMENDED IN ASSEMBLY APRIL 6, **2006**

INTRODUCED BY Assembly Member Jones

FEBRUARY 24, **2006**

An act to amend Sections 124116.5, 124118, 124118.5, and 124119 of the Health and Safety Code, relating to public health.

LEGISLATIVE COUNSEL'S DIGEST

AB 2651, Jones Newborns: hearing screening.

The existing Newborn and Infant Hearing Screening, Tracking, and Intervention Act requires that every California Children's Services (CCS)-approved general acute care hospital with licensed perinatal services offer all parents of a newborn, upon birth admission, a hearing screening test for the identification of hearing loss, using protocols approved by the State Department of Health Services or its designee.

This bill would, instead, require that this hearing screening be offered to every newborn, upon birth admission, by every general acute care hospital with licensed perinatal services, and would make related changes to the program. It would require certain hospitals that have not been approved by the CCS program, to contract for the provision of this service.

This bill would provide that its provisions shall become operative on January 1, 2008.

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

SECTION 1. Section 124116.5 of the Health and Safety Code is amended to read:

124116.5. (a) (1) Every general acute care hospital with licensed perinatal services in this state shall administer to every newborn, upon birth admission a hearing screening test for the identification of hearing loss, using protocols approved by the department or its designee.

(2) In order to meet the department's certification criteria, a general acute care hospital shall be responsible for developing a screening program that provides competent hearing screening, utilizes appropriate staff and equipment for administering the testing, completes the testing prior to the newborn's discharge from a newborn nursery unit, refers infants with abnormal screening results, maintains and reports data as required by the department, and provides physician and family-parent education.

(b) A hearing screening test provided for pursuant to subdivision (a) shall be performed by a licensed physician, licensed registered nurse, licensed audiologist, or an appropriately trained individual who is supervised in the performance of the test by a licensed health care professional.

(c) Every general acute care hospital that has not been approved by the California Children Services (CCS) program and that has licensed perinatal services that provides care in less than 100 births annually shall, if it does not directly provide a hearing screening test, enter into an agreement with an outpatient infant hearing screening provider certified by the department to provide hearing screening tests.

(d) This section shall not apply to any newborn whose parent or guardian objects to the test on the grounds that the test is in violation of his or her beliefs.

SEC. 2. Section 124118 of the Health and Safety Code is amended to read:

124118. The department or its designee shall provide every general acute care hospital that has licensed perinatal services, or neonatal intensive care unit (NICU), as specified in Section 123975, written information on the current and most effective means available to screen the hearing of newborns and infants, and shall provide technical assistance and consultation to these hospitals in

developing a system of screening each newborn and infant receiving care at the facility. The information shall also include the mechanism for referral of newborns and infants with abnormal test results.

SEC. 3. Section 124118.5 of the Health and Safety Code is amended to read:

124118.5. (a) The department shall establish a system of early hearing detection and intervention centers that shall provide technical assistance and consultation to hospitals in the startup and ongoing implementation of a facility hearing screening program and followup system.

(b) The early hearing detection and intervention centers shall be chosen by the department according to standards and criteria developed by the California Children's Services (CCS) program. Each center shall be responsible for a separate geographic catchment area as determined by the program.

(c) Each center shall be required to develop a system that shall provide outreach and education to hospitals in its catchment area, approve hospitals on behalf of the department for participation as newborn hearing screening providers, maintain a database of all newborns and infants screened in the catchment area, ensure appropriate followup for newborns and infants with an abnormal hearing screening, including diagnostic evaluation and referral to intervention services programs if the newborn or infant is found to have a hearing loss, and provide coordination with the CCS and local early intervention programs as defined in Title 14 (commencing with Section 95000) of the Government Code.

SEC. 4. Section 124119 of the Health and Safety Code is amended to read:

124119. (a) The department shall develop and implement a reporting and tracking system for newborns and infants tested for hearing loss.

(b) The system shall provide the department with information and data to effectively plan, establish, monitor, and evaluate the Newborn and Infant Hearing Screening, Tracking and Intervention Program, including the screening and followup components, as well as the comprehensive system of services for newborns and infants who are deaf or hard-of-hearing and their families.

(c) Every general acute care hospital with licensed perinatal services, or NICU in this state shall report to the department or the department's designee information as specified by the department to be included in the department's reporting and tracking system.

(d) All providers of audiological followup and diagnostic services

provided under this article shall report to the department or the department's designee information as specified by the department to be included in the department's reporting and tracking system.

(e) The information compiled and maintained in the tracking system shall be kept confidential in accordance with Chapter 5 (commencing with Section 10850) of Part 1 of Division 9 of the Welfare and Institutions Code, the Information Practices Act of 1977 (Chapter 1 (commencing with Section 1798) of Title 1.8 of Part 4 of Division 3 of the Civil Code), and the applicable requirements and provisions of Part C of the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1475 et seq.).

(f) Data collected by the tracking system obtained directly from the medical records of the newborn or infant shall be for the confidential use of the department and for the persons or public or private entities that the department determines are necessary to carry out the intent of the reporting and tracking system.

(g) A health facility, clinical laboratory, audiologist, physician, registered nurse, or any other officer or employee of a health facility or laboratory or employee of an audiologist or physician, shall not be criminally or civilly liable for furnishing information to the department or its designee pursuant to the requirements of this section.

SEC. 5. Sections 1 to 4, inclusive, of this act shall become operative on January 1, 2008.
